

DIRECTION SHEET

Starting the Application

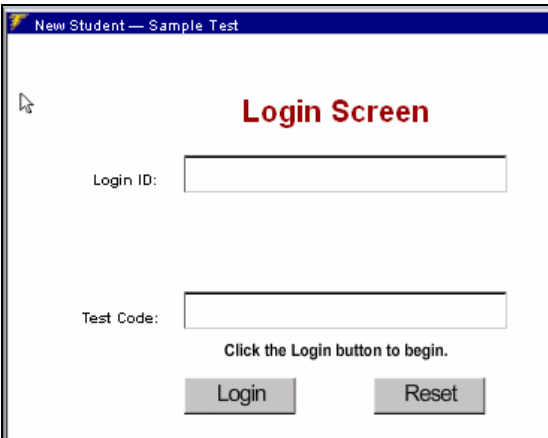

To begin the test, double click the TestNav icon on the desktop. Please be patient while TestNav loads.

- The test monitor will distribute the test authorization tickets for the test with the address or URL printed on them.
- Enter the address for the test by typing in the web address or selecting it from the drop-down box.
- Click the *GO* button.

Login Screen

If the test monitor has already loaded TestNav, the login screen will be the first screen to appear.

- On the login screen, enter the *Login ID* and *Test Code* from the test authorization ticket.
- If you make a mistake, click the *Reset* button and enter the information again.
- Click the *Login* button.

Testing Rules

Once you begin the test, you cannot perform any other function on the computer. This includes accessing the Internet or email. You cannot use the copy, cut, or paste functions.

If you try to leave the test, the test may close and the test monitor will need to restart it.

After Testing

You **must** turn in the test authorization ticket, direction sheet, and scratch paper, if used, to the test monitor before you leave.
